  - EZ Advice from “The Coating Guru’s”
  - EZ One Stop Shopping

built **Kompac tough** for a long life

# let kompac put you in the coating business

## FEATURES

**Solid State UV** - A more **environmentally friendly** technology! Solid State UV replaces outdated & potentially hazardous ballast/mercury relay systems used in curing UV reactive inks and coatings.

The infinitely variable bulb control allows the operator to make precise adjustments resulting in the perfect curing wattage every time, whether digital or offset output.

Over curing can damage toner based inks causing the coating to "Scratch Off."

### Solid State UV

- Up to 300 watts / inch Curing Power
- Instant Start-up
- Runs Cooler
- Compact & Light Weight
- **Saves Energy**
- **Eliminates Mercury**  
(except for a minute amount used in the bulb)
- **Kompac offers an "Ozone-Free Bulb" and a Recycling program for a greener operation**

### "Patented" Kompac Coating System

- EZ On/Off Coating Controls (Reduces Coating Waste)
- Produces the highest gloss and a perfect finish every time
- EZ to clean and change coatings - With the patented "**Kompac Vac**" and our **environmentally friendly UV Klean**, coating change and clean up takes 5 minutes

## SPECIFICATIONS

Sheet Size:	20.5" width, virtually any length
UV Lamp:	Solid State - infinitely variable UV
Speed:	Up to 4000 sph
Stock Weight:	100lb. text to 30pt. cover
Controls:	Adjustable speed & UV intensity
Weight:	600lbs.
Dimensions:	72"L x 36"W x 48"H
Electrical:	208-230/1Φ/50-60Hz

## SMALL FOOTPRINT

- Perfect for Small Shops!
- Fits Through Standard Doorway
- EZ to move...It's on Wheels
- Extended feed & delivery trays available

## KOMPAC QUALITY
